# Police Activity in Forest Creek Subdivision, September 2009 - February 2010

NOTES

This map shows the streets included in the analysis. Streets outside the subdivision appear as reference points.

The data source for this analysis is the Police Department's Computer-Aided Dispatch database; these data are drawn from information police dispatchers enter into the computer as calls occur. That being said, the information presented here represents how the original calls came into dispatch and not their final disposition. Thus, some care should be exercised in interpreting these results.
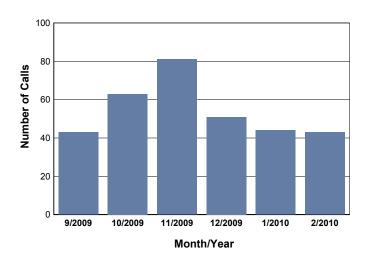

Animal Control and traffic calls are screened from the analysis. In addition, some portions of Huntington and Meadowild that are not strictly in the subdivision are included due to the way the data tables are constructed.

Questions regarding these results, the data source or this report should be directed to:

Call dispositions are organized into the following categories: Arrest Made, Cancelled/False Alarm, No Report, Report Taken, Referred (to Other Agency), Unable to Locate, and Warning or Ticket Issued. If a category does not appear in the table above, then no calls resulted in that disposition category during the period in question.
